

# Finland's recent strategic work on smart and sustainable mobility

Finnish – Estonian Collaboration and Business Forum

Laura Eiro, Director General of Data, Safety and Security Department  
31 March 2023

Sustainable growth, wellbeing, safety and security  
through data, knowledge and future-proof connections

1

**Digitalisation, data economy, safety and security require collaborative leadership and investments.**

2

**We need to build  
future-proof transport  
system now.**

3

**Customer-oriented  
mobility services  
create wellbeing.**

4

**International connectivity  
and logistic position of  
Finland need to be improved.**

# Thank you!
