

## Twin transition arena

### Logistics data sharing

- EU regulation and policy
- Regional approach combining local, regional, and EU goals & targets
- Real business demand
- ISO 14083 as a backbone
- eFTI data set
- Multimodality

 CO2 Emission    
  Transport performance    
  Digital freight documents

### Vision of Baltic Sea Region Sustainable Logistics Data Sharing

Targeting a MoU and joint policy maker roundtable to form Baltic Sea region+ sustainable logistics data sharing concept and step-by-step guidance.
