

Network of Smart and Sustainable Transportation
Experts at the Core of Green and Digital Transition

Come discuss with us

- 1 Networking with Finnish companies & organizations
- 2 Smart solutions in transportation and mobility in Finland
- 3 Export promotion & opportunities in Finland

Contact: alex.gyllenbogel@its-finland.fi

Meet us at :

ITS Nationals booth No. 02 308

Traffic management company Fintraffic

Come discuss with us

- 1 Fintraffic manages and controls traffic and traffic related data in all modes of traffic
- 2 Traffic data ecosystem - making the most effective use of data, 200+ organizations
- 3 Traffic Data Service Cluster – Selected forerunner companies for traffic information, traffic control and management services – for land, sea & air

Contact: kimmo.ylisiurunen@fintraffic.fi

Meet us at :

ITS Nationals booth No. 02 308

FORUM VIRIUM HELSINKI

Forum Virium Helsinki is the City of Helsinki innovation company.

Come discuss with us

- 1 Helsinki as a testbed for innovative solutions technologies
- 2 Innovation partnerships for national and EU projects
- 3 Helsinki's status a global frontrunner in Smart Mobility implementation

Contact: jussi.knuuttila@forumvirium.fi

Meet us at :

ITS Nationals booth No. 02 308

Efficiency is sustainability

Come discuss with us

- 1 Fleet management
- 2 On-demand transport & shared mobility
- 3 Real-time data in scheduling

Contact: jaakko.melamies@mellenium.fi

Meet us at :

ITS Nationals booth No. 02 308

NODEON

Smarter living environments

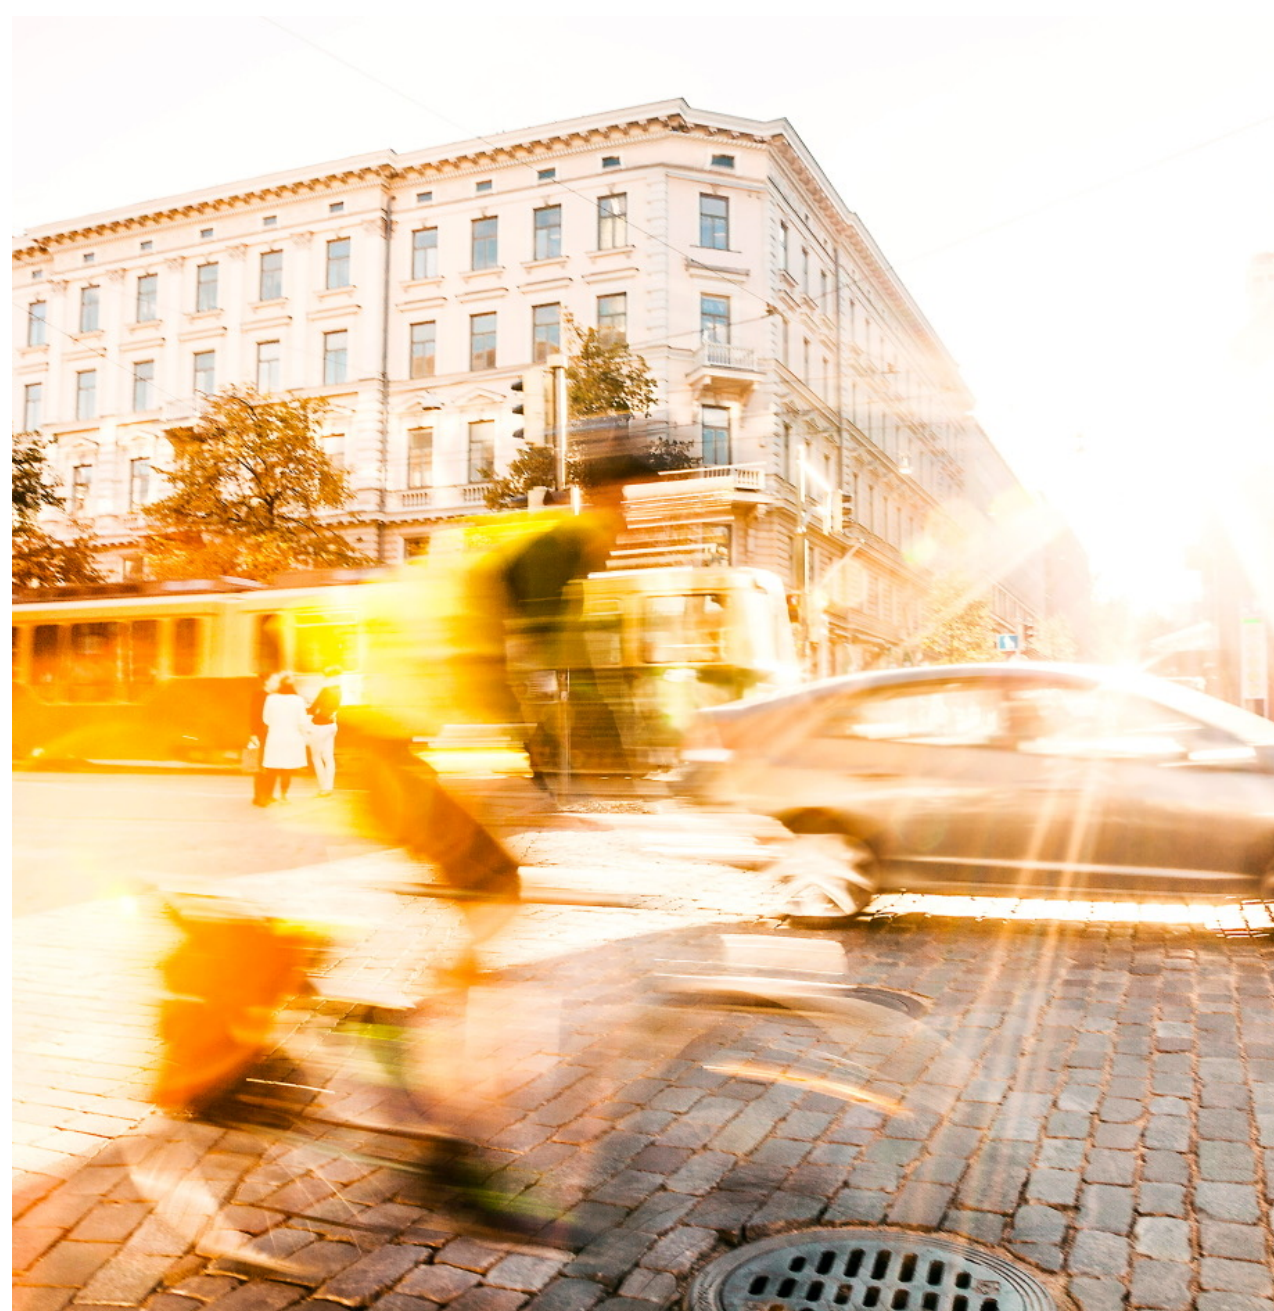

Come discuss with us

- 1 Traffic management
- 2 Collecting and managing traffic data
- 3 C-ITS solutions

Contact: timo.majala@nodeon.com

Meet us at :

ITS Nationals booth No. 02 308

Redefining Parking and Charging

Come discuss with us

- 1 Combine parking and charging, no subscription needed
- 2 One kiosk that serves several charging points, ad hoc payment
- 3 High quality and esthetic payment unit, reliably even in the harshest conditions

Contact: henrik.hultin@semel.fi

Sharing our Nordic planning heritage and global best practices with you!

RAMBOLL

By integrating urban planning with transport modes and systems, and employing digitalisation, we are shifting the focus from the machines that move us to the freedom of mobility for all. Ramboll tackles the region's hardest mobility challenges through a holistic approach that combines our legacy of planning in the Nordic capitals with a high consideration of local context. We combine technical domain know-how with our understanding of the complicated transportation sector governance and financial structures. Informed by our decades of collaboration with clients and partners, we utilise smart mobility to develop the right strategies and implementation in cities throughout the world.

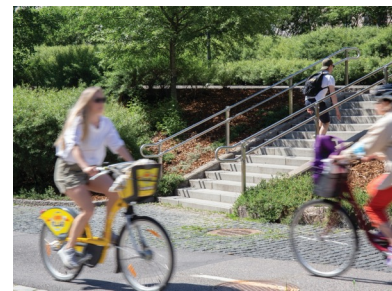

Vision Zero on Your Streets

Born in Sweden, our experts have been leading the way on Vision Zero and its context-sensitive application in cities around the world for over 20 years.

eMobility Readiness, Now

Electric bicycles, scooters, buses, trains, ferries, or cars, our teams - including experts in Norway - are managing the world's most innovative projects in e-mobility.

#1 Bicycle Communities

We've worked alongside Copenhagen for decades to build the world's most bicycle-functional city, and we're ready to share that world-class knowledge with you.

Ramboll as your partner

More than 18,000 experts are at the heart of Ramboll's operations, helping drive sustainable impact. They deliver standalone and multidisciplinary solutions across Buildings, Transport, Energy, Environment & Health, Water, Management Consulting and Architecture & Landscape.

Across the world, Ramboll combines local experience with a global knowledge-base to create sustainable cities and societies. We combine insights with the power to drive positive change to our clients, in the form of ideas that can be realised and implemented.

We call it: Bright ideas. Sustainable change.

Want to share your goals with us? Please get in touch:

Sustainable Urban Mobility Plans (SUMPs)

The next big thing in transport planning is not battery-powered, it's holistic planning that emphasizes basics before buzz. As planners for all the major Nordic cities, let's talk about SUMPs in your city.

Digital Solutions, Big Time

We're serious about simulations, modeling, and big data. If you want access to all the latest solutions to analyze large transport problems, talk to us.

Mobility-as-a-Service is Live!

We've worked with MaaS since its very first baby steps in Finland, and we understand what it takes to make MaaS work in your city.

SITOWISE

The Smart City Company

Design and consulting services for the built environment and digital solutions in the Nordics.

Come discuss with us

- 1 Want to introduce new ITS business opportunities in Finland – let's talk.
- 2 Deployment of C-ITS services. Data from Traffic, Roads and Vehicles.
- 3 Data from silos to platform? Life Cycle data modelling in Smart Cities.
