

# CYBEXER TECHNOLOGIES

Cyber ranges for securing complex,  
connected systems

Growth Forum 2026  
Helsinki

**CybExer**

# CybExer in Brief

---

➤ **What we do**

Cyber ranges: realistic technical environments  
For cybersecurity exercises, training, and R&D

➤ **Why it matters**

Cybersecurity cannot be learned from theory alone  
Organizations need hands-on practice with real systems

➤ **We work across industries**

Defence & security  
Critical infrastructure  
Financial services  
Academia & research

➤ **Exports are not optional**

Niche product, small home market  
Global-first is mandatory

➤ **Today**

Offices in Estonia and the UK  
Customers across Europe, the Middle East and Asia
