

An aerial photograph of a coastal road, likely the Ring Road in Iceland, winding along a dark, calm body of water. The road is a two-lane asphalt highway with white dashed lines. A small white car is visible on the road, moving away from the viewer. The surrounding landscape is rugged and green, with rocky outcrops and sparse vegetation. In the upper left corner, there is a small green rectangular graphic element.

FUTUREPROOF MOBILITY

BUILDING TYRES OF TOMORROW TOGETHER

THE CHALLENGE

- The rapid emergence of changes is occurring at an unprecedented pace.
- Climate change mitigation**
Road transport is a major source of carbon emissions.
- The new era in **digital tools and capabilities** sets an unprecedented stage for transformation and opportunities.
- Increasing **vulnerability of the global value chains** challenges manufacturing.

- How to overcome these **challenges**?
- How to take an advantage form these **opportunities**?
- How to become **futureproof**?

Together with **cross-industry ecosystem** we can develop **technical solutions** and efficient **European value chains** to guarantee sustainable, safe on- and off-road mobility and **resilient advanced manufacturing** of future products.
